

CAR SAFETY

✓ Keep your child in the right seat for their size. The shoulder height marker will tell you when they are big enough to change seats.

✓ Every time you put your little one in their seat, check that everything is buckled up and fits them properly

✓ Never leave children alone in a car – it can get really hot and make them sick

✓ Driveways can be very dangerous places for children. Find a safe place for little ones to play away from the driveway and always walk around your car and check before reversing.
