

POISONING

Babies are inquisitive and love to explore their environment.
Make sure that poisons are up high and out of reach to keep baby safe.

POISONING

- ✓ Lock away all poisons including medicines and cleaning products in a cupboard up high, at least 1.5 metres above the ground
- ✓ Put locks on low cupboards and drawers to stop baby opening them
- ✓ Check what plants you have at home and get rid of any dangerous ones
- ✓ Put the **Poisons Information Centre number 13 11 26** – they can help if your little one swallows a poison
